Anyone can set up a free profile, upload a photo and be "searchable." 2.) All-Inclusive

Hollywood OS® is a publishing company and supplies casting content in print and online. (Our books "EXTRA" WORK for Brain Surgeons® or KIDS' ACTING for Brain Surgeons® rock - see the reviews!) All account options and subscriptions include complete access and unlimited use. This platform and this philosophy has successfully worked for over 16 years in business.3.) Benefits Include:

- Review casting information.

- Manage and update your profile.

- Control your photos.

- Hardcopy directory of your choice.

- Post for rush calls.

Some media companies, websites, services, management firms or casting companies will charge you a registration fee, an exorbitant monthly fee, a few bucks to submit to casting notices AND a 20% percent commission. Some even charge up to \$50 per image, per change, per upload.

NOT US. How does charging a premium for your photos help you get work? It doesn't. It simply creates a great revenue source for the company controlling your career. The idea is for you to market your different "looks" and increase your work opportunities. Not gauge you for photos! Not cool.

As a subscriber, if you have set up a profile, you have COMPLETE control over your information and photos. We do not lock them down or charge you additional money for updating or swapping them out.4.) No "Extra" Fees... Dumb Pun Intended... When you subscribe to Hollywood OS®, EVERYTHING IS INCLUDED, even a copy of our best-selling publications, "EXTRA" WORK for Brain Surgeons® or KIDS' ACTING for Brain Surgeons®. No additional, penny-pinching fees!

- NO CHARGE per photo.

Bottom line, even if you are not a paid up, current subscriber of Hollywood OS®, you still benefit from your original subscription.
